Title:
Section W2 (10 marks)
You are on holiday in the mountains. It is spring. Write a message to a friend. Tell him/her about your holiday. Write about 50 words.

Hi,
Section R1 (13 marks)
Read the following passage and answer all the questions.

Family Adventure

Niall Carton and his son, James, have spent six months preparing for a North Pole expedition. It is expected to take them two weeks and they will walk ‘unaided’. This means they won’t have dogs to carry their equipment. They will both pull a sledge with everything packed on it in temperatures of -40°C to the North Pole. If James, aged 15, finishes, he will become the youngest person in the world to reach the North Pole unaided.

This is not the first polar expedition for Niall. He has reached the South and North Poles before, but he suffered headaches and sickness at the South Pole and was seriously hurt when he fell down a wall of ice at the North Pole. He knows they will face problems. ‘In the north the ice moves under your feet. It’s not dangerous and it could possibly bring you closer to the pole, but this almost never happens. Usually, it takes you further away!’

Niall and his family live in Moscow, where he works as a banker. He and James spent months training in the Russian winter. They are now carrying out their last-minute training in Oslo, Norway. Soon they will fly to the Russian ice station at Barneo to begin their adventure. They will need to walk for ten hours a day. They are raising money for charity and people have already given over £7,000. They hope to reach their target of £20,000 before the end of the expedition.

For questions 1-3 please answer in complete sentences. (2 marks each)

1. How long should the expedition take?

2. How will they carry their food and equipment?

3. If James is successful, what world record will he hold?
